## PROJECTS

### Food delivery website : Swiggy Clone July 2023 - Dec 2023

- Create a replica of the swiggy food delivery platform to gain hands-on experience on full-stack development.
- Designed and deployed a scalable website that works just like swiggy with extra features.
- Created Swiggy clone with HTML, CSS, React, Node.js, Mongo DB.

### Car Dealership website Jan 2023 - May 2023

- Strives to provide friendly environment for the consumers to directly contact with different brands at the same time for different models.
- It was a team project.
- The project incorporates HTML, CSS, JavaScript and different libraries.

### Wine quality prediction using ML Jan 2022 - Feb 2022

- Design and implement a novel feature engineering strategy that improved model accuracy.
- Help to identify and improve wine production and quality control using ML algorithms.

---

## EDUCATION

### Bachelors in Computer Science Engineering Aug 2021 - June 2025

Chandigarh University

### Intermediate Mar 2020 - Mar 2021

SDMN Vidya Mandir

### Matriculation Mar 2018 - Mar 2019

SDMN Vidya Mandir

---

## SKILLS

- **Technical Skills:** C, C++ Java, Python, Web D
- **Languages:** English, Hindi
- **Concepts:** Data Structure, OOPs, Operating System, DBMS, Software Engineering
- **Awards/Activities:** Research paper on the topic "Analysing online food delivery website using Big Data". Solved over 250+ DSA questions on different platforms.
